**Diversity**
The CPD values diversity and we believe it makes us both stronger and smarter. We respect, encourage, and embrace all aspects of human differences and value what each individual can bring to the team. In support of the SUNY Strategic Plan, we support the belief “that diversity enriches our lives, awakens our curiosity, widens perspective, and invigorates conversations, thereby ensuring success in collaborations.”

**Innovation**
The CPD strives to take both proactive and creative approaches to identifying the best solutions for training and professional development for our customers in support of the changing landscape for higher education and the diverse needs of the various campus sectors. We pursue innovative delivery methods to address constraints of campus customers and we seek to leverage online tools and emerging technologies to increase our overall effectiveness.

**CULTURE**

It is important to consider the organizational culture that should exist to provide maximum support for achievement of vision, mission, and goals of the CPD Strategic Plan. As an organization, we strive to create a culture for the future that is characterized by cooperative spirit, inspired by the SUNY Strategic Plan, responsive to our members, and supported with sound policies and approaches that engender trust.
