

FastTrack for Microsoft 365

James O'Neal
Modern Work Architect

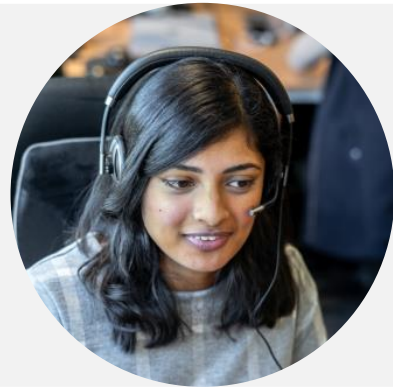

FastTrack for Microsoft 365

Deploy Microsoft 365 with expert, technical guidance from FastTrack

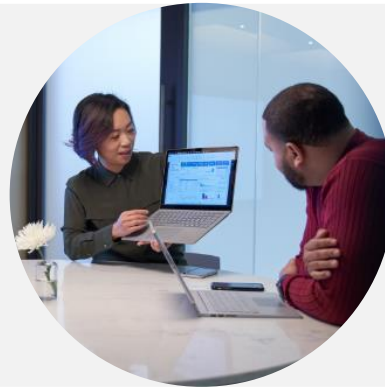

Remote guidance can help you:

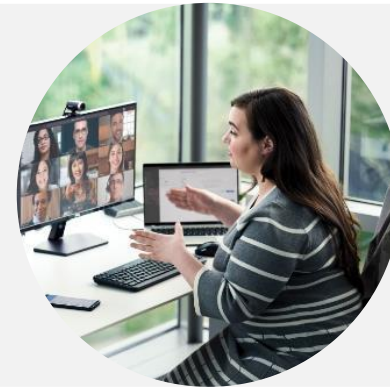

Configure identity, security, compliance, and cloud management

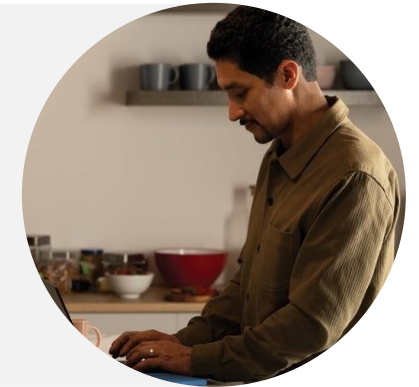

Deploy Windows 11/Windows 365, Microsoft 365 Apps, and Microsoft Edge

Migrate data and ensure application compatibility

Enable Microsoft Teams, including Teams Rooms, Teams Phone, and events

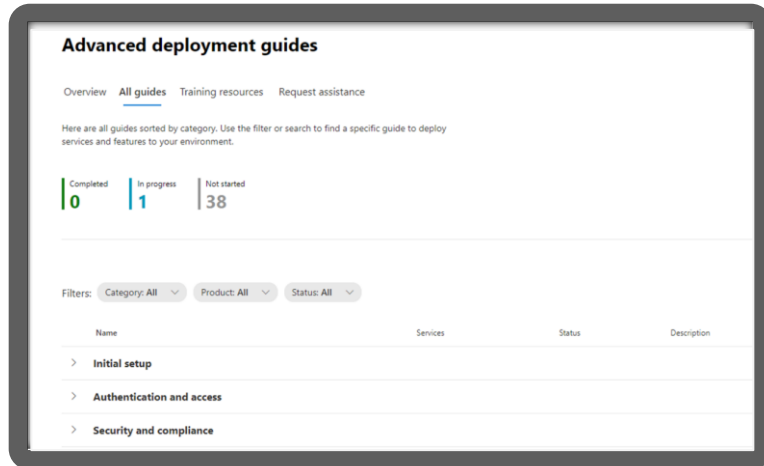

Implement Employee Experience scenarios with Microsoft Viva

Visit aka.ms/FastTrackServiceDescription for the latest FastTrack details

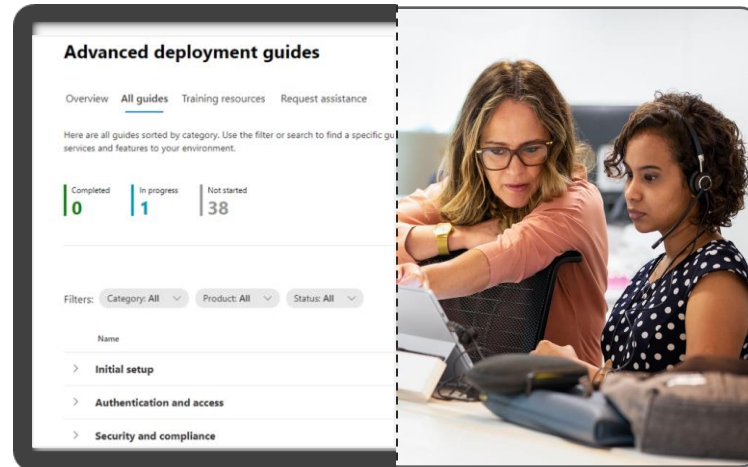

FastTrack services are delivered in multiple ways

Self-serve

All customers can use in-product advanced deployment guides available in the Microsoft 365 admin center

FastTrack OnDemand

Customers with 150+ eligible licenses of certain workloads get a delivery model that combines remote guidance together with in-product advanced deployment guides
