October 2023 Monthly Webinar

Project Management Community of Practice
October 26, 2023

What is the Project Management Community of Practice?

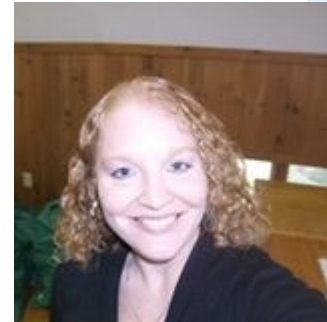

- This Community of Practice is for Project Management Professionals inside and outside of the SUNY community. We aim to create a space where project management professionals can share best practices, initiate discussions around project management concepts and learn more about project management and topics that affect project management.
- We look to foster discussion and sharing through the following:
 - Monthly webinars on PM topics and concepts
 - Discussion posts from moderators and members
 - Polls
 - Training opportunities for those in a PM centered position

October Monthly Webinar Speaker

For our October 2023 Monthly Webinar, two of our fellow SUNY professionals have agreed to present their [SUNY Technology Conference \(STC\) 2023 Presentation](#) again just for us. Varya McCaslin-Doyle and Joshua Peluso ([SUNY Cortland](#)) will be joining us to present the following:

Building a Project Management Culture

This presentation will give an overview of how a culture of project management was formed and maintained in the Information Systems and Security department at SUNY Cortland. We will talk about the various tools and methodologies we have pulled from to not just develop our project management but continuously improve. This presentation will cover how to get started with project management and, more importantly, how to keep going. Other discussion topics will include psychological safety when working on projects, how projects interact with your service catalog and change management procedures, and how to begin building your project program(s) and portfolio(s). We will share what our planned next steps for development are and how we plan to achieve them.

Upcoming Monthly Webinars
