SUNY CPD Welcomes SAIL!

On October 26, 2023, the SUNY Office of Student Success, lead by Senior Vice Chancellor Donna Linderman, announced the SUNY Strategic Academic Innovative Leadership Institute (SAIL) would merge into the SUNY Center for Professional Development (CPD) allowing SAIL to leverage SUNY CPD's program and support model and infrastructure.

The merger enables both CPD and SAIL to expand their networks and create a broader range of professional development and training programs along with services to campuses. It is expected that SUNY SAIL signature programs will continue to be offered through SUNY CPD.

Both organizations share a mission to empower individuals and organizations through workplace learning and development. Merging CPD and SAIL as a distinguished Leadership Institute increases operational efficiencies and creates additional areas for collaboration and growth.

Please join me in welcoming SUNY SAIL Director, Carolyn Mattiske to our team at SUNY Center for Professional Development.

Thank you for your continued support of CPD and SAIL. We are looking forward to the new opportunities this merger presents in 2024.

- Lisa Raposo, Executive Director

2024 SUNY Digital Learning Conference "Educating for Digital Citizenship"

Students need distinctive skills to be effective, responsible, autonomous democratic citizens in a digitally mediated society: for example, the ability to distinguish information from misinformation and disinformation; to leverage online networks for purposes of advocacy and activism; to build public-facing websites that make data-informed arguments, preserve cultural heritage, or amplify marginalized voices; to be as secure as possible from governmental and commercial surveillance; to distinguish AI hype from AI reality.

We invite faculty, technologists, librarians, teaching and learning support specialists, and students to a conversation about how we teach the arts of digital citizenship.

Submit a proposal to present at this open, two-day, online conference. Submission **deadline is January 28, 2024.**

Innovative Instruction Technology Grants (IITG) and Open Educational Resources (OER)

The call for proposals is now open for IITG and OER Impact Grants which are funding opportunities designed to foster academic innovation.

The proposal process has been redesigned to encourage faculty and staff to connect beyond departmental and campus boundaries to pilot, share, and scale-up transformative teaching and learning practices connected to the Chancellor's strategic four pillar objectives and our shared commitment for leading sustainable, impactful innovations that return value by multiple measures. These competitive seed grant programs will also focus on how these program objectives can be supported by focusing on:

(1) optimizing artificial intelligence (AI) for teaching and learning, and/or

(2) expanding support for the adoption of open educational resources (OER).

Letters of Intent are due by January 17, 2024
