SUNY Center for Professional Development

April 2024 Monthly Webinar

Project Management Community of Practice
April 24, 2024

# What is the Project Management Community of Practice?

- This Community of Practice is for Project Management Professionals inside and outside of the SUNY community. We aim to create a space where project management professionals can share best practices, initiate discussions around project management concepts and learn more about project management and topics that affect project management.

- We look to foster discussion and sharing through the following:
  - Monthly webinars on PM topics and concepts
  - Discussion posts from moderators and members
  - Polls
  - Training opportunities for those in a PM centered position

April Monthly Webinar Speaker

For our April 2024 Monthly Webinar, we will be watching a video together from the PM Podcast on managing multiple projects. [In this video](#), we'll explore some of Cornelius's and Elizabeth's approaches and tips and trick to manage more than one project at a time. As a group we will discuss the video's key takeaways and relevance to SUNY campuses.

Podcast Description: Research shows there are more people managing multiple projects than single projects, and yet there is not much information about it.

To be able to manage big, single projects requires abilities that we, as project managers, have learned and developed over the years; learning about managing various projects is the new ability to learn.

[Join Elizabeth Harrin and Cornelius Fichtner as they discuss the fascinating topic of Managing Multiple Projects](#). Should we use the same approach as when managing one project? What are the recommended tools to use? What's the trick, really?
