

CIO LEADERSHIP ACADEMY

FEBRUARY – MAY 2024

Why Attend?

- Work with an experienced CIO mentor
- Personal 360 Leadership Skills Inventory Assessment Report
- Participation in virtual growth sessions throughout Spring 2024
- Develop and execute an applied learning project to advance you and your campus team
- Develop and refine executive presence skills
- Social learning and networking

Learning Objectives

The Chief Information Officer (CIO) Leadership Academy enables current and aspiring CIOs and IT leaders to strengthen their leadership ability by:

1. Gaining new understanding of their personal leadership styles;
2. Knowing when to use different leadership skills based on the situation;
3. Being able to articulate a vision and turn the vision into implementation;
4. Learning how to build and lead a team;
5. Developing new collaboration skills;
6. Refining their communication and executive presence skills; and
7. Advancing their understanding of key issues confronting CIOs (e.g., information security, institutional data management and data-enabled student success technologies).

Intended Audience

- New and aspiring chief information officers, chief digital information officers and information technology directors.
- Current IT Practitioners, directors/assistant directors, assistant CIOs or research directors with significant responsibility for information services, including information technology, computing, software support, information security, data infrastructure, library services and so forth.
- Those who provide the coordination and leadership for ensuring quality and success of information-related activities on their campuses.
- Additional job titles may include Analysts, Heads of Technology, Deputy CIOs, Dean of IT, AVPs, Information Security Officers, Project Managers, Systems or Network Administrators or Managers, Lab and Classroom Technicians, etc.
