# February 2025 Monthly Webinar

Project Management Community of Practice  
February 27, 2025

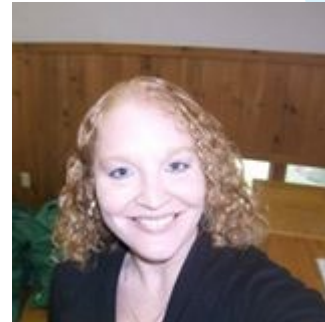

# What is the Project Management Community of Practice?

- This Community of Practice is for Project Management Professionals inside and outside of the SUNY community. We aim to create a space where project management professionals can share best practices, initiate discussions around project management concepts and learn more about project management and topics that affect project management.
- We look to foster discussion and sharing through the following:
  - Monthly webinars on PM topics and concepts
  - Discussion posts from moderators and members
  - Polls
  - Training opportunities for those in a PM centered position

# Project Management CoP Moderators

## February Monthly Webinar Speaker

For our February 2025 Monthly Webinar, we will be watching a video together from [Bill Dow's - PMO & Project Management Videos](#) on Top Communication Tools in project management.

In the video that we will be watching, Bill will discuss some of the different communication tools/templates that he creates and uses as a project manager to make sure that he and his PM team are being effective at communicating with stakeholders and project team members. Please note that he won't be discussing products for communication (like MS Teams or email) but different documents that you can create to simplify how your project will be communicated out that can help you organize your communication plan and make it clearer to your project team and stakeholders.
